

# KuanJu Chen

UX Designer | Systems, Research, AI-Driven Products

---

## ABOUT ME

UX Designer with experience designing and launching AI driven and platform scale products. I work closely with engineers and PMs to translate complex systems into clear, usable experiences, with a focus on research informed decisions and long term product thinking. Graduating from CCA (Interaction Design) in May 2026.

---

## EXPERIENCE

Aug 2025 - Oct 2025

### UX Designer (Systems & Research)

GitRoll

- Designed end-to-end UX flows for AI generated candidate profiles, aligning automation with transparency and recruiter trust.
- Defined information architecture and interaction models for AI generated profiles under technical constraints
- Collaborated closely with engineers to align UX decisions with data pipelines and backend logic
- Defined interaction patterns and user controls to manage uncertainty, edge cases, and human review within AI-assisted workflows.

Aug 2024 - Oct 2024

### UX Designer

AMA Career | Internship

- Redesigned core AI interview customization feature, supporting 100+ users within the first week of launch
- Built and documented a shared Figma component library to improve design consistency and handoff efficiency
- Iterated designs through rapid feedback loops with stakeholders and engineers

Jun 2023 - Sep 2023

### UI Designer

Metamory

- Sole designer on Petamory, leading research, UX, and UI across web and mobile platforms
  - Designed and launched MVP on TestFlight and App Store, growing users from 10 to 300+
  - Supported product narrative and UX vision contributing to \$3.8M seed investment
- 

## SKILLS
